PsychWriterPro

DISTRICT BUYING GUIDE

Psychological report writing for your whole team

PsychWriterPro turns test scores into finished evaluation reports in Word or PDF. This guide covers what it does, what it costs, how a district buys it, and how student data is protected.

63,090+	475+	297+	17
reports generated	organizations	supported tests	clinical domains

What your psychologists get

- **Scores classified automatically** as they are entered, with confidence intervals from built-in tables.
- **One consistent report structure**, organized by the Integrated SNP/CHC Model, across every school.
- **Scores from different tests combined** into ready-made tables by what they measure.
- **Online rating forms** (NPCC) that parents and teachers complete on a phone, in English or Spanish.
- **Faster writing**: narrative templates, dictation, and AI drafts shown as tracked changes to accept or reject.
- **Export to Word or PDF** with your district letterhead.

Pricing

Monthly license

$50 per user / month

Annual license

$500 per user / year

Special pricing is available for teams and districts.
Tell us how many psychologists you have and we will send a quote.

- Every feature is included in every license. Unlimited patients and reports.
- 14-day free trial.
- A free onboarding session for your team, by phone or screen share.

How to buy with a purchase order

1. **Get in touch.** Book a call or email us with the number of users you need.
2. **Receive a quote.** We send pricing for your team, plus any vendor paperwork your district requires.
3. **Issue your purchase order.** No credit card is needed.
4. **We set up your organization** and send an invoice.
5. **Onboarding.** We walk your psychologists through the software.

Paying by card instead? Any psychologist can sign up directly at psychwriterpro.com and start a trial.

Privacy and security summary

PsychWriterPro is designed to support HIPAA compliance and was built with FERPA privacy practices in mind. Each school or district remains responsible for its own compliance, including how its staff use and share information.

Hosting	Amazon Web Services in the United States. The database runs on a private network that is not directly reachable from the internet.
Encryption	Data is encrypted in transit and at rest, and system credentials are stored encrypted.
Separation of data	Each organization's data is kept separate. Only users on your account can see your students.
Access controls	Team owners control who is on the team, and roles control who can do what. Each user has their own account.
Sign-in	Handled by a secure, industry-standard login service. Sessions sign out automatically after a period of inactivity.
Backups	Data is backed up automatically, with safeguards against accidental deletion.
Activity logging	Changes to patient profiles are recorded so your team can review them, and system activity is logged.
AI features	PsychWriterPro does not use your data to train AI models.
Agreements	If your organization requires a business associate agreement (BAA) or a data privacy agreement, contact us to discuss your needs.

The full statement is at psychwriterpro.com/privacy-security.

Questions districts ask

Do you support the tests we use?
297+ tests and rating forms are supported, including the WISC-V, BASC-3, Conners 4, NEPSY-II, KTEA-3, WIAT-4, BRIEF2 and Vineland-3. The full list is at psychwriterpro.com/supported-tests, and we add tests from customer requests.

Does it replace the publisher's scoring?
No. PsychWriterPro is a report writer. Psychologists enter or import scores from the publisher's scoring, and PsychWriterPro classifies them, builds the tables and helps write the report.

Can we see sample reports?
Yes. Samples in each report layout are at psychwriterpro.com/samples.

How do licenses work?
Licenses are per user. An account owner manages billing and the team, and ownership can be transferred to another team member.
